SRIRAMA KRISHNA KADIYAM

6304057809 — sriramkadiyam63@gmail.com
LinkedIn — GitHub

Career Objective

Motivated and enthusiastic **Python Developer Fresher** with a strong foundation in Python programming, machine learning, and software development. Eager to apply technical skills, learn emerging technologies, and contribute to developing efficient and reliable software solutions.

Education

Ganpat University — Mehsana, Gujarat
B.Tech in Computer Engineering — 2023–2027

Nirmmala Junior College — Andhra Pradesh
Intermediate (MPC) – 79% — 2021–2023

ZP High School — Andhra Pradesh
SSC – 80% — 2020–2021

Technical Skills – Python Developer

- **Programming Languages:** Python, C, Java (Basics)
- **Python Development:** OOP, Functions, Exception Handling, File Handling
- **Web Development:** HTML, CSS, JavaScript
- **Data Science & Machine Learning:** NumPy, Pandas, Matplotlib, TensorFlow, Machine Learning
- **Data Visualization:** Power BI, Tableau
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

Projects

AI-Based Crop Advisory and Management System
HTML, CSS, JavaScript, Firebase, Firestore

- Developed a web-based agricultural advisory system for crop recommendation, disease detection, fertilizer advisory, weather information, and market price tracking.
- Integrated an AI chatbot to provide interactive agricultural assistance and information.
- Designed a responsive dashboard using HTML, CSS, JavaScript, Firebase, and Firestore for data management.

Instant Recipe Maker
Next.js, React, MongoDB, FastAPI, Google Gemini 2.5 Flash, Firebase

- Built a full-stack application that generates recipes based on user-provided ingredients.
- Developed FastAPI backend APIs for ingredient processing and recipe recommendations.
- Designed a responsive frontend using Next.js and React, with MongoDB for storing recipes and user data.

Fruit Detection & Classification
Python, TensorFlow, CNN, MobileNetV2

- Developed a multi-class fruit classification model using a labeled fruit dataset.
- Applied transfer learning and data augmentation to improve model performance.
- Compared CNN-based models and achieved 79% accuracy using MobileNetV2.

Certifications

- **Deep Neural Networks (DNN)** – Cognitive Class
- **Natural Language Processing (NLP)** – Infosys Springboard

Languages

Telugu – Mother Tongue — **English** — **Hindi**
